

EXPERIENTIAL LEARNING

We learn best when we are discovering things for ourselves

Challenge yourself with our experiential learning programs; an exciting and unique team building and personal development product. This phenomenal new approach to Management, Leadership Development, Communication, Goal Setting, Confidence Building and Team Building focuses on solution based, “out of the box thinking”. These programs are customized to focus on the specific areas you wish to improve with your team.

EQUINE ASSISTED LEARNING

Workshops create unique scenarios as horses are used to help individuals gain insight about themselves and others through self-awareness, non-verbal communication, body language and building trust.

ADVENTURE BARN

Our Adventure Barn is designed with two experiential learning venues; an Indoor Rock Wall and Low Elements Challenge Course.
